

# Strategic Engineering Session

## **STRATEGOS: the Opportunity to Join a New Major International Partnership based on M&S**

**Altis Grand Hotel, Lisbon, Portugal, September 19, 2019**

Join to the **Strategic Engineering** Session presenting this new discipline devoted to combine Simulation, Data Analytics, Artificial Intelligence, Intelligent Agents & Machine Learning to support Strategic Decision Making.

**STRATEGOS** is an International Initiative led by Genoa University as answer to the emergent need to train and educate young Engineers and Scientists to use this approach and to adopt a comprehensive approach to address complex problems; Simulation is one of main pillars in this area and there is a major interest on these subjects by Major Industries (e.g. Hitachi, Leonardo, Thales), Consulting Firms (e.g. Accenture, Bearing Point), International Agencies (e.g. NATO M&S COE) and Hi-Tech Companies, as well as Nationally and Internationally Institutions and Organizations.

Companies, Institutions & Universities are invited to join **STRATEGOS** and to promote common R&D Projects & Proposals, Workshop & Seminars, Internships, Student Summer Stages, Faculty/Student Exchanges

Please contact us for info on **STRATEGOS Workshop**
