STRATEGOS at WAMS2019

STRATEGOS to master M&S, Data Analytics & AI for supporting Strategic Decision Making

Singapore, November 12, 2019

A Strategos ...should have the temper and the spirit of the good cause to carry him through difficulties with satisfaction and credit

Thomas Stamford Bingley Raffles, Letters, 1823 A.D.

STRATEGOS, the International Master Degree in Engineering Technology for Strategy & Security is one of the first programs around the world addressing the new discipline of **Strategic Engineering**. **STRATEGOS** prepares new young engineers to master the combined use of Simulation, Modeling, Data Analytics, AI/IA (Artificial Intelligence/Intelligent Agents) to support Strategic Decision Making.

STRATEGOS is also a joint initiative, led by Genoa University, carried out in cooperation with major Industries (e.g. Hitachi, Leonardo, Rina, Thales), Consulting Firms (e.g. Accenture, Bearing Point), International Agencies (e.g. NATO M&S COE) as well as Hi-Tech Startups.

Companies, Institutions & Universities are invited to join **STRATEGOS** and to promote common R&D Projects & Proposals, Workshop & Seminars, Internships, Student Summer Stages, Faculty/Student Exchanges
